Braybrook & Co is a trading name of Braybrook & Co which is an appointed representative of The Openwork Partnership, a trading style of Openwork Limited which is authorised and regulated by the Financial Conduct Authority.

The benefits of starting a pension early

It's never too early to start saving for retirement. In fact, the sooner you start saving, the more time for your money to grow.

Starting a pension early is one of the best things you can do for your financial future. By taking advantage of the benefits of early retirement savings, you can ensure that you have a secure financial future and enjoy your retirement years to the fullest.

More time to save

One of the most significant benefits of starting a pension early is the additional time you have to save money. The longer your money is invested, the more time for it to grow, which can help you accumulate a larger retirement fund. Starting early also means that you can take advantage of compound interest, which is interest earned on both the principal and the accumulated interest. Over time, compound interest can significantly increase the value of your pension fund.

Lower monthly contributions

Starting a pension early can also help you keep your monthly contributions lower. Because you have more time to save, you can spread your contributions over a longer period. This can make it easier to budget for your retirement savings and ensure that you are putting away enough money to reach your retirement goals.

Employer contributions

If you are enrolled in a workplace pension scheme many employers offer to match employee pension contributions, (up to a certain percentage). This 'free money' can help you save even more for retirement.

Tax benefits

The government offers tax relief on pension contributions, which means you can put more money into your pension each month. For example, if you're a taxpayer, you can get up to 45% tax relief on your contributions.

Financial security

Starting a pension early can help provide financial security in retirement. By starting to save early, you can build a solid foundation for your retirement years and ensure that you have enough money to cover your expenses. This can help alleviate financial stress and allow you to enjoy your retirement years without worrying about running out of money. Knowing that you have a secure financial future can give you peace of mind and allow you to enjoy your retirement more.

Tips for starting a pension early:

- **Set up a regular contribution**
The best way to make sure you're saving for retirement is to set up a regular contribution. This could be a fixed amount each month or a percentage of your salary.
- **Increase your contributions as you earn more**
As your income increases, you can increase your pension contributions to make sure you're on track for a comfortable retirement.
- **Take advantage of tax relief**
The government offers tax relief on pension contributions, which means you can put more money into your pension each month.
- **Consider employer contributions**
Many employers offer to match employee pension contributions, which is free money that can help you save even more for retirement.

By giving yourself more time to save, keeping your contributions manageable, taking advantage of tax benefits, and providing financial security in retirement, you can set yourself up for a comfortable and fulfilling retirement. So, if you haven't started saving for retirement yet, now is the time to start!

The value of investments and any income from them can fall as well as rise and you may not get back the original amount invested.

HM Revenue and Customs practice and the law relating to taxation are complex and subject to individual circumstances and changes which cannot be foreseen.
